ABOUT DRIVEN TO WIN

BUILDING CARS

BUILDING PEOPLE

The goal of Driven to Win is to help teens win at life and on the track by developing life skills and friendships through the avenue of motorsports. They will learn important skills such as: mechanics, welding, fabrication, defensive driving problem solving, teamwork, and much more. It is also a program used to combat the suicide and bullying epidemic sweeping our nation.

TIMOTHY DAY

Racing has been a passion for Tim since he was a child. He has been able to successfully race and win many races in the past 6 years. Although racing is a passion, it's not his main motivation. Tim's full time job is pastoring the Bible Baptist Church in Camdenton, MO. This is what gives the driving force behind DTW. Merging the passion for racing with the passion to help people brought about this unique program. He desires that through motorsports, people will recognize that they are important and loved.
